

High School Enrolments 2024

Dear Parents,

It is hard to believe that it is already that time of the year when you need to start thinking about what high school your child will attend in 2024.

It does take time, however, for the enrolments to be finalised and so the NSW Government requests that this process starts in Term 1, 2023.

The EOI process has now gone digitised, you can now go online & fill out the form from the 6th March – 31st March 2023 this will be available at

<https://education.nsw.gov.au/inside-the-department/enrolment/year-6-to-year-7-transition>

Our local Government high school is Cambridge Park High School. If this is where you would like your child to attend in 2024, then completing the online form is easy.

If, however, you would like your child to enrol in a non-local Government high school, it is important to read the information in the package carefully and to fill in all the required information.

If your child is going to a private or Catholic high school, we still require you to fill in the online form so we can report to the State Government's attendance officers.

To assist us in meeting our deadlines, please go online & have forms completed by 24th March 2023.

If you have any questions, please see the lovely office ladies.

Thank you,

Mrs Avery
Principal
