School Contributions K – 6 2023

Werrington Public School relies heavily on the contributions to the school by parents. I would like to inform parents of the purpose and importance of our various charges. **Parental support in the prompt payment of these charges in the past has ensured the very best education at Werrington Public School.**

1. There is a **voluntary contribution**, set at \$30.00 per student. This still, remains less a quarter of the figure suggested by the Department of Education. This is used chiefly to supplement government funding and to make possible such purposes as classroom supplies (pencils, glue, workbooks) library resources, computing resources, school environment improvements, photocopied worksheet and booklets.
2. The **Technology Levy**, of \$15.00 this includes subscriptions to online learning programs including Mathletics and Reading Eggs

Please note, excursion charges are separate to school contributions.

For your convenience Werrington Public School accepts online payments for school related fees, excursions & expenses.

To access the online payment portal, please log onto Werrington Public School website at: werrington-p.school.nsw.gov.au

Click on “Make a Payment” and follow the prompt to make a payment via Visa or Mastercard.

Should you have any questions please contact the school on 02 9623 7077

Kind Regards,

Mrs Avery

Principal

Werrington Public School
